OSA 2471-62
Copy 3 of 3

3 December 1962

MEMORANDUM FOR : Assistant Director, OSA

SUBJECT : OEL Coordination

1. Recent incidents involving the modification and updating of old equipment as well as discussions of equipment requirements and operational tactics, have indicated that OEL has taken unilateral action which is not in concert with operational requirements of OSA. In at least two instances these actions have been justified by stating that the requirement had been coordinated with the undersigned. While I agree that the subjects generally were discussed, the coordination had not been accomplished and no concurrence from any representative of Operations Division was given.

25X1A

2. I recommend that such actions be discussed with [REDACTED] and that future OEL services for OSA be placed in memorandum form and concurred in by offices of OSA prior to implementation.

25X1A

Chief, Operations Division, OSA
